## Abstract

SCORM (Sharable Content Object Reference Model) is an international specification for e-learning. It provides sharable content, compatible run-time environment and learning profile. SCORM is a popular standard for e-Learning and has the advantages of accessibility, adaptability, affordability durability, interoperability, and reusability. However SCORM don' t have complete evaluation mechanism, we integrated SPC table to strengthen SCORM assessment.

Keyword : SCORM, SP table, SPC table, e-learning, assessment
