摘要

1. Features:

- (1) Allows the ability to cut ingredients into equal sizes for better presentation.
- (2) Small and light-weight, portable and easy to store, with the concept of environment protection.
- (3) Easy to clean and dry.
- (4) Precise measurements of ingredient portions and weight
- (5) Reduce the time necessary for food preparation.

2. Technology

- (1) Integrating the cutting board with digital weighing balances
- (2) Large pressure-sensitive measurement surfaces to measure food mass.
- (3) A cutting board with both thin and lightweight features
- (4) Cutting lines on the cutting board depicted using easy-to-operate grid lines.
